

Recognizing Our Mission & Core Values In Action

Karen Buscavage

"Dynamic Leadership & People"

**Growing Ideas
Producing Excellence**

"At a recent TEAM meeting, we witnessed Karen Buscavage get up in front of our TEAM and do something she was absolutely petrified to do--speak in front of us. While you would not know at all that she was uncomfortable in doing this, she indeed had a lot of fear and anxiety speaking to a group of people she knows very well...Most of you do not know that Karen has since personally set up a Public Speaking Forum in order for me and others to help accomplish this goal. She has taken the time out of her crazy schedule to do this for us: to better ourselves and practice feeling better in our own skin when we are in front of a group, talking about topics that are not in our wheelhouse... She has created a relaxed environment with some added incentives for the best speaker, which makes it not only productive but also fun. I believe Karen should be recognized for helping to develop our associates by becoming better speakers."
