“Producing Excellence”

Producing Excellence**

“I was tracking a route today because of a new customer’s delivery to Albert's Organics in Bridgeport, NJ. I had asked for the phone number of the driver of this route, **Phil Oberholtzer**. I had several communications with Phil to get updates on this route, which consisted mostly of SLI customers. I thought Phil was outstanding in his timely communication to me throughout the late morning and early afternoon - this enabled me to give accurate and timely updates to our customers located in Holland and California. I appreciated his professionalism on the phone, and want to tell him thanks for what I thought was excellent service to me.”
