

Recognizing Our Mission & Core Values In Action

Brian Dey

“Producing Excellence”

*Growing Ideas
Producing Excellence*

“Brian Dey clearly **Produced Excellence** as he recently jumped into a Dale Carnegie course with both feet. Brian distinguished himself as a highly motivated and very successful student throughout this course. He set clear goals for improving his managerial and communication skills and for very specific personal and lifestyle changes. He had perfect attendance for the course - and won five awards out of a possible twelve, based on the vote of his fellow class members. The awards were: **Breakthrough, Human Relations Champion, Outstanding Performance** and **Crashing Through** (awarded twice). In order to both use and teach others the skills from this course, Brian will be mentoring and training the Retail Services team as part of his goals in 2010.”
