

# ORGANIC MARKET NEWS

SEPTEMBER 10 - SEPTEMBER 17, 2021

## ORGANIC HARD SQUASH SEASON

Time to promote **Organic Hard Squashes** for late summer and fall!

We will expand our offerings from the standard best sellers of **Organic Acorn**, **Spaghetti**, and **Butternut**, to include seasonal specialty varieties. These will be sourced mostly from organic farms in PA, OH, and WI.

Here is a full run down of our mid-September program:

- |                             |                                  |
|-----------------------------|----------------------------------|
| 41036 – <b>OG Acorn</b>     | 41044 – <b>OG Kabocha</b>        |
| 41030 – <b>OG Buttercup</b> | 41220 – <b>OG Pie Pumpkins</b>   |
| 41031 – <b>OG Butternut</b> | 41055 – <b>OG Red Kuri</b>       |
| 41057 – <b>OG Carnival</b>  | 41050 – <b>OG Spaghetti</b>      |
| 41035 – <b>OG Delicata</b>  | 41037 – <b>OG Sweet Dumpling</b> |
| 41053 – <b>OG Honeynut</b>  |                                  |

**Merchandising Tips:** Display a broad variety of **Organic Squashes** at a blended per pound price point during September and October. Hard Squash is a low-risk item for shrink, and therefore ideal for outdoor and vestibule displays. Cross-merchandise with apples, pumpkins/ornamentals, and other “fall bounty” items.

### OG APPLES

**Organic SweetTango Apples** are in peak season. This premium variety, with Honeycrisp parentage, is a flavor and texture-lovers treat during September and October.

New crop Washington **Organic Honeycrisp Apples** are in good supply with prices coming down slightly. Demand is strong!

New crop **Organic Gala Apples** are in excellent supply with easing prices and promotional opportunities available. Consider adding a bag option.

The 2020 storage season of New Zealand and Washington **Organic Fuji Apples** will finish up and will transition to new crop 2021 Washington fruit by mid to late September, without skipping a beat. Prices will be higher on the new crop.

New Zealand **Organic Granny Smith Apples** will finish up and we will smoothly transition to fresh crop 2021 Washington product without a gap by mid-September.

The last of the import **Organic Pink Apples** are expected to finish for the season in late September and then gap until new crop arrives in late October or early November.

### OG BERRIES

**NOTE: Organic Blackberry** prices are on the rise as California starts to decrease in supply very quickly. Mexico will begin ramping up very slowly so expect very high prices for the rest of September and maybe into October.

**NOTE: Organic Blueberry** supplies are extremely limited with high prices as California, Oregon, and Washington end their seasons. Fresh crop **Organic Blueberries** from Peru are just coming into season, but there are significant delays at the ports entering the US. Supplies continuity will be wonky.

**NOTE: Organic Raspberry** and **Strawberry** volumes will begin to drop weekly, and prices are headed up. Expect sporadic gaps until the new year. These are no longer considered to be promotable items.

### OG TOMATOES

**Organic Beefsteak** and **Cluster Tomatoes** continue out of Canada and Ohio. Quality has been excellent from both regions.

**Organic Grape Tomatoes** from Lady Moon Farms remain available with excellent supplies. Quality has been exceptional coming from PA!

**Organic Cherry** and **Rainbow Cherry Tomatoes** will be available with promotable volumes for the week of 9/13. Quality from Lady Moon's PA farm has been excellent!

**Organic Heirloom Tomatoes** continue in season from Lady Moon Farms. Quality has been exceptional on this new variety.

Nice quality **Organic Vine Ripe Tomatoes** continue to be available from King Family Farms grown in Lancaster County, PA.

**Packaged Organic Cluster Tomatoes** from Quebec (Saladio) are back in steady supply.

### OG SQUASH

Local **Organic Zucchini Squash** is ending. The rains from Hurricane Ida have affected supplies and will conclude for the season in early September. Fortunately, Lady Moon's Florida **Organic Zucchini** is expected to begin harvesting in the second week of September, while the Carolinas and Georgia have begun with limited supplies.

**Organic Yellow Squash** is back in stock from the Carolinas and Georgia in early September after many local vendors were without supplies for late August. Volumes are strong and pricing will improve as the month continues.

### OG CUCUMBERS

**Organic Cucumber** production from Lady Moon and other local suppliers have mostly concluded due to Hurricane Ida. The Carolinas and Georgia began limited harvests in late August and Mexican supplies are also available in a limited fashion. Expect limited availability and high pricing in early September, but to improve as the month continues.

**Organic Mini Cucumbers** will be available from Canada. Quality has been excellent.

**Organic Euro Seedless Cucumbers** will be promotable for the week of 9/13 from Canada. Quality has been very nice, and supplies are strong.

### OG CAULIFLOWER

**Organic Cauliflower** from California has seen market conditions improve in early September in pricing. Although quality is not perfect, it's better, and pricing will be more promotable in mid-September.

Quebec product will be available to help supplement California product.

**Organic Romanesco** will be back in stock starting 9/16!

### OG HOTHOUSE PEPPERS

**Organic Red, Orange, and Yellow Bell Peppers** from Canada remain steady in supplies and quality, while the Holland season has drawn to a close early.

Pricing will remain reasonable on the British Columbia grown product in early to mid-September, and quality is outstanding.

### OG WATERMELONS

**Organic Mini Watermelons** will be on the tighter side for the week of 9/13 after a brief gap in production. California continues to have supplies, but harvest numbers are down.

We will start with Navajo Pride deal out of New Mexico for the week of 9/13. Quality is usually some of the best fruit available and the season is very short.

### OG SPECIALTY

**Organic Magenta Dragon Fruit** is now in season from California!

The **Organic Kiwano Melons** and **Organic Passion Fruit** season has started in California and fruit will be available again for the week of 9/13.

### OG KIWI BERRIES

**New! Organic Kiwi Berries** from Oregon will be in stock starting around 9/16!

**Organic Kiwi Berries** sell well when merchandised in the berry set. For consumers, **Kiwi Berries** ripen at room temperature until soft - that's when they have a perfect blend of sweet and tangy. Rinse and eat whole.

### OG ASPARAGUS

**ALERT! Organic Asparagus** is very tight for the week of 9/13 and prices will be very high. There is a brief gap out of Mexico and supplies are extremely short. Volumes are expected to improve by end of September as Argentina and Mexico will begin new harvests.

14/12oz **Bagged Organic Asparagus** is out of stock during seasonal gap.

### ORGANIC FAIR TRADE BANANAS

**NOTE:** Due to shipping line challenges and port delays, we will see a slight shortage on **Organic Fair Trade Bananas** from Equal Exchange for the week of 9/13.

We will supplement with some Chiquita **Organic Bananas** that will help us stay in stock mid-month.

## OG HASS AVOCADOS

**ALERT!** 48ct and larger **Organic Hass Avocados** continue to be in very high demand with low volume. Pricing is expected to stay higher at least through the end of September when the new Aventajada crop should start to get going. The Mexican Flor Loca crop is winding down and yielded virtually no large sized fruit this year.

## OG POMEGRANATES

**Organic Pomegranates** from California are now in steady supply for the 2021 domestic season. Larger fruit will be offered as it becomes available, but we are starting with a 30-36ct 2-layer pack!

## OG CUBED BUTTERNUT

**Organic Cubed Butternut Squash** from Olivia's Organics brand is back in stock for the fall and winter, starting 9/15!

Be sure to add this fast-selling convenience product to your refrigerated case.

## OG BROCCOLI

**NOTE:** **Organic Broccoli** from California remains somewhat limited in early September. Pricing continues to rise as quality issues are present and demand is stronger than supplies to begin the month. September is expected to be a difficult month.

**NOTE:** **Organic Broccoli Crowns** also continue to experience price increases and less availability. Expect these conditions throughout September.

**NOTE:** **Organic Broccoli Rabe** and **Sweet Baby Broccoli** remains limited with quality issues slowing volumes.

## OG PAPAYAS & MANGOS

We'll be offering a new **Organic Papaya** variety for September called **Organic Royal Star Papayas**. This variety has the flavor of popular Hawaiian papayas, only it's bigger in size, similar to a Maradol. Sizing will range from 9-12ct per box and will be sold as a 24lb net weight box!

**ALERT!** **Organic Formosa Papaya** will gap for the month of September and into October from our partner HLB in Mexico.

**Organic Mangos** will be winding down in mid to late September from Mexico. We'll finish the season with delicious, but fast-ripening Non-Hot Water Treated fruit - mostly 8ct.

The next **Organic Mangos** will be from Ecuador in mid-October. We will likely have a few weeks gap on **Organic Mango** supply.

## OG LETTUCE

**Organic Romaine Hearts** from California are being affected by growing condition, causing pricing to continue to rise as September continues.

**NOTE:** **Organic Iceberg Lettuce** from Quebec will be gapping in supply for the first week of September. Supplies from California will be limited and expensive.

**Organic Lettuces** from California remain limited in September and conditions are expected to remain unchanged until mid to late September. Quebec production will offer continued steady supplies in September.

## OTHER STORIES

- **Organic Celery** continues to see steady supplies for early September. Good supplies and excellent quality make **Organic Celery** a great item to promote!

- **NOTE:** **Organic Bi-color Sweet Corn** from NY and PA has concluded for the season. Rain during the planting season caused quality issues and caused the season to end early. Limited product from California will be available in September.

- **Organic Brussels Sprouts** from Mexico remain steady in supply during September. Although pricing is okay, they're a great promotable item as quality is outstanding.

- **Organic Green Bean** volumes have slowed down in September from Elizabethtown, PA. The light supplies are due to planting interruptions by weather conditions, but they're only expected to be temporary. Pricing should remain promotable even during light supplies.

- New crop Washington **Organic Juice Grade Granny Smith Apples** (without PLU sticker) will be available for the week of 9/13 and are expected to be in good supply going forward.

- **Organic Pink Pearl Apples** are set to arrive for the week of 9/13 in very limited supply and will be done as quickly as they begin.

- **Organic Eggplant** and **Green Pepper** supplies from Lady Moon Farms in PA remain strong in volume with top-notch quality. Hurricane Ida fortunately did not affect **Peppers** and **Eggplant** in the same way as other commodities. With strong volumes and excellent quality, continue to promote these items.

- **Organic Pear** season is ramping up to peak. **Organic Asian, Bartlett, Bosc, and Starkrimson (Red) Pears** are all in season.

- **Organic Peaches, Nectarines, and Pluots** are still available with some good late season quality.

# GUIDE TO HARD SQUASH

## ACORN/GOLDEN ACORN

- Small and round like an acorn
- Sweet, slightly nutty vegetable flavored flesh
- Dark green skin, patched with orange
- Packed with fiber

## GOLDEN NUGGET

- Looks like a small pumpkin
- Sweet, orange flesh

## BLUE/GOLDEN HUBBARD

- Very hard skin
- Great for pie filling
- Excellent shelf life

## HONEYNUT

- Like a mini-sized butternut
- Flesh is much sweeter and has more squash flavor than butternut

## BUTTERCUP & KABOCHA

- Green skin
- Sweet & creamy orange flesh
- Kabocha aka "Japanese Pumpkin"

## RED KURI

- Japanese variety
- Orange exterior, yellow flesh
- Nutty & sweet

## BUTTERNUT

- Most popular hard squash variety
- Orange flesh
- Versatile in cooking, roasting
- Ideal blended for soup

## SPAGHETTI

- Mild & sweet flavor
- Flesh comes out like pasta strands when cooked - hence the name

## CARNIVAL

- Pale, orange flesh
- Relative of Acorn & Sweet Dumpling

## SWEET DUMPLING

- Mildly sweet
- Tender, orange flesh

## DELICATA

- Yellow flesh
- Tastes like a sweet potato
- Edible shell - no peeling needed!

## TURBAN

- Gets its name from its unique shape
- Use as decoration, soup bowl, or a floral arrangement

# CONVENTIONAL MARKET NEWS

SEPTEMBER 10 - SEPTEMBER 17, 2021

## EASTERN APPLES RAMPING UP!

PA and NY **Apple** growers are ramping up for peak season!

**Eastern Apples** continue to build with additional varieties. We've kicked off with **McIntosh** and **Red Delicious** for the week of 9/13, and the quality is excellent! **McIntosh** are running smaller right now, so we'll see mostly 100 ct trays, but sizing will improve as we get into the NY crop with more 80ct and 88ct available.

Eastern **Ginger Gold** and **Gala Apples** continue in peak season volume in trays, random weight totes, and 3lb bags. **Cortland**, **Empire**, and **Fuji Apples** are slated to start in late September.

Eastern **Honeycrisp Apples** are in steady supply with nice quality so far.

NY grown **Sweetango Apples** will begin the week of 9/13. At this point, the crop seems to be sizing towards larger fruit. This is an outstanding varietal and holds the world record for the "[loudest bite crunch](#)". They'll be available in both trays and bags.

### CV BERRIES

**ALERT!** **Strawberries** will continue to be in tighter supply as we head into mid-September. Overall demand continues to be strong, and there's just not enough fruit in the marketplace.

Quality has been okay, but keep in mind that we will continue to see more bruising than usual. Plan to sell the fruit quickly and cut back on display size.

**ALERT!** **Blueberries** are in very limited supply now that domestic fruit has finished. Demand is excellent but new crop arrivals from Peru have not kicked into high gear, plus there are delays at the US ports, so expect to see much higher pricing through the end of the month. Quality has been beautiful on all Peruvian fruit that has made it into the US.

**NOTE:** **Raspberries** and **Blackberries** are in much tighter supply heading into the week of 9/13. Overall supplies will continue to be short with higher pricing until we shift into Mexico early October.

### GRAPES

**Green and Red Seedless Grapes** are in excellent supply from California. The entire month of September will be an ideal time to promote both colors. California has had such dry growing conditions that these grapes are arriving with virtually no defects. The quality is simply over the top!

We have one of our favorites, **Green Emerald Green Grapes**, arriving around 9/16, and the sizing on this variety is massive - many over 1" in diameter. We've got export grade fruit coming from Dulcich Pretty Lady on this - get ready!

On the **Red Seedless Grapes**, we will continue to run with the **Scarlet Royal** variety.

We'll also have a value line on some LG **Red Seedless Grapes**.

**Black Seedless Grapes** are the **Midnight Beauty** variety for mid-September.

### CV SPECIALTY GRAPES

**Candyland brand Specialty Grapes** are in season and they're outstanding!

We started out with the **Candy Snaps** this past week, and beginning 9/15, we'll have three more varieties - **Candy Crunch**, **Candy Dreams**, and **Candy Hearts**. All of these are packed as 10/11lb clamshells, and the flavor and sugars are impressive.

**Cotton Candy** and **Moon Drops Grapes** are in excellent supply from The Grapery for mid-September, and the quality is excellent.

Promote **Cotton Candy Grapes** while you can since this variety is expected to finish by late September. **Moon Drops Grapes** will be promotable into October. Both of these varieties are full of sugar and eat great!

### CV STONE FRUIT

**Peaches** and **Nectarines** from New Jersey will stretch into the last week of September. This year's crop has been excellent, and we expect to have great sizing with mostly 2 3/4" all the way to the end. Quality has been nice on both items.

**Pluots** from Family Tree Farms will be coming to an end by the final week in September. Until then, we have four great varieties available, all of which are packed in the single layer euro cartons. We have the **King Kong II** (black), **Gold Rush** (green), **Flavor Gator** (mottled), and **Flavor Fall** (red). All of these varieties are great eating with outstanding flavor!

### CV PEPPERS

**Green Pepper** prices are strengthening for the week of 9/13. Demand has increased and local production is slowing down on big-sized **Peppers**. New fields in GA and NC have not yet started harvests.

**11lb Red, Orange, and Yellow Pepper** prices will start ease off some for the week of 9/13. Canada is slowing down with production, but Mexican production is really ramping up. Quality has been excellent.

### CV PEAS

**ALERT!** **Snow** and **Snap Pea** prices have increased for the week of 9/13. Expect short gaps in availability as Guatemala has not been able to ship any product in due to weather.

### CV CUCUMBERS

**Euro Seedless Cucumber** prices will continue to rise for the week of 9/13. Canadian growers are harvesting less product and Mexico has not yet started production to fill the void. Prices are expected to stay higher through September.

**Mini Seedless Cucumber** prices have increased for the week of 9/13. Harvests continue to be short out of Canada and demand has been strong.

**Super Select Cucumber** prices will be steady for the week of 9/13. Local production does remain limited as fields begin to finish up. North Carolina is starting new fields and harvests will begin to come in. Quality should be excellent.

### CV SQUASH

**Green Squash** will be promotable for the week of 9/13. Local fields continue to harvest, and NC and GA fields are also just beginning. Quality has been excellent.

**Yellow Squash** prices will be steady for the week of 9/13 as local availability locally remains limited. Expect markets to ease off some as new fields from GA and NC are expected to begin shortly.

### CV SWEET CORN

**Sweet Corn** prices are strengthening as harvests start to finish up locally in Pennsylvania.

Delaware will continue to have availability through September and quality will be excellent.

### CV SPECIALTY

**Pomegranates** from California are in full swing! Quality has been excellent.

California **Fresh Figs** have seen a slowdown in production the past few weeks due to heat. Prices have increased a few dollars as a result.

**Quince** will be available once again from California. Four Seasons will offer a 32-36ct single layer pack!

**Dragon Fruit** from Florida dried up very quickly and supplies are very tight in all varieties. We should begin to see some fruit coming from Ecuador, but that season has been slow to come on.

### CV PUMPKINS & ORNAMENTALS

**Pumpkins** and **Ornamentals** are now available! Our full lineup is stocked and ready for you to transform your stores from summer to fall sets. Quality looks exceptional on early arrivals.

**NOTE:** Due to the heavy rains from Ida, supplies and availability could tighten going into October. The recommendation this year is to bring product in early and promote early.

### CV HOTHOUSE TOMATOES

**Beefsteak** and **Cluster Tomatoes** remain promotable for the week of 9/13. Quality out of Mexico and Canada has been excellent.

## CV EGGPLANT

**Eggplant** continues to be promotable for the week of 9/13 from local farms grown in PA and NJ. Quality has been outstanding. **Graffiti** and **Italian Eggplant** varieties are also available and looking excellent.

## CV LOCAL TOMATOES

**Heirloom Tomatoes**, grown in Lancaster County, PA, continue in season with steady supplies. Quality has been exceptional. Supplies should last through September, but quantities are expected to drop off as the weather produces cooler temps at night.

**NOTE:** Local **Vine Ripe Tomato** prices have increased as demand has risen, and supplies are very limited after the rains from remnants of Hurricane Ida. Quality on what is available has been excellent but expect supplies to gap. We will also offer excellent quality product from Tennessee and California.

**Grape Tomato** prices remain fairly strong overall. Many areas have been affected by Hurricane Ida, which is limiting production. Local product in our Native Grown label remains available, however supplies are slowing down quickly. Quality has been nice.

**Medley Snacking Tomatoes** will be promotable for the week of 9/13 coming from local and hot-house growers. Quality has been excellent.

- **Limes** are in better supply from Mexico heading into mid-September. Pricing will begin to slide down on all place packs as well as volume fill 150's and 230's. Quality has been very nice.

- **NOTE: Artichoke** availability is limited, and prices are likely to remain high into early October.

- **Broccoli Crowns** quality has been excellent from Stag brand in Maine! In CA, harvest numbers started to drop, and pricing is slowly increasing.

## CV PACKAGED GREEN BEANS

**ALERT! Packaged Green Beans** will be in more limited supply during mid-September from Eat Smart brand due to insect pressure and other growing issues in their current fields. Better fill-rates are expected closer to October.

## CV GREEN BEANS

**NOTE: Green Bean** prices really jumped up as recent heavy rains have limited production from local fields. Markets will stay on the higher side for the week of 9/13 as product remains limited.

## CV MELONS

**Cantaloupes** from Turlock fruit (Peacock) have been absolutely gorgeous. Sizing continues to run really large, and we've been bringing in the jumbo 9 ct cartons. They look to be in this jumbo fruit through the middle of the month, and then we'll see sizing drop back down to 12ct. Quality has been excellent!

**Honeydews** will be in tighter supply heading into mid-September. We're beginning to enter the tail end of the season so along with lighter supplies, we're also going to see sizing drop. We will see 5 and 6 ct become more limited while 8ct will become more plentiful. Quality right now has been excellent!

**Watermelons** will remain available for the week of 9/13 in bins and cartons. DE will continue to harvest through September. North Carolina is starting new fields as well and quality has been exceptional from both regions.

## OTHER STORIES

- **CA Cauliflower** is poised to go up in price as Quebec and Maine are more limited. Local **Bin Cauliflower** will not start until closer to October.

- **Fuyu Persimmons** are being delayed by heat and should hit the east coast the last week in September.

- **NOTE:** CA and Quebec are seeing a decline in **Lettuce** harvest numbers. Availability is tightening and prices are increasing.

## CV TROPICALS

We will be offering the popular **HoneyGlow Pineapples** from Del Monte in 5 and 7ct sizing. The taste and quality of this fruit is outstanding.

**Pineapple** supplies are excellent for the week of 9/13 from Dole and Chiquita. Look to promote on 6 and 7ct sizing!

**ALERT! Hass Avocados** continue to command a premium price for 48ct fruit and larger (if available). Pricing should finally start to come off by the end of September.

Fresh crop arrivals of Brazilian **Mangos** are available. Supplies have been a little tight as the season is only starting to ramp up. These will be available again for the week of 9/13!

- **Fuji and Granny Smith Apples** are in tight supply from Washington. We're in a gap between the 2020 crop and the new 2021 crop, but this should only last for about a week. Look for pricing to remain higher until the week of 9/20.
