

# ORGANIC MARKET NEWS

SEPTEMBER 17 - SEPTEMBER 24, 2021

## FALL CROP ORGANIC VEG OUTLOOK

September will be an exciting time for Lady Moon Farms, as the weather changes so will their offerings!

Early September marked the beginning of Pennsylvania fall crops, including **Organic Kales**, **Collards**, **Dandelion**, **Rainbow Chard**, and **Parsleys**. Volumes will grow and promotional opportunities will be available throughout the season! Although each season varies based on weather conditions, these crops usually conclude for the PA season in mid-October. Make sure to capitalize on the brief fall PA season and highlight local!

Although new crops are beginning PA, summer **Organic Veg** is coming to a close for Lady Moon Farms in September. Early September marked the end of **Organic Zucchini** and **Cucumbers**, and as the month continues, **Organic Green Peppers** and **Eggplant** will draw to a close.

Not only are the crops in PA changing in September, but Lady Moon Farms' Florida facility is beginning strong with volume on **Organic Zucchini**, followed by **Organic Cucumbers** in mid to late September! Expect promotional opportunities throughout the fall. **Organic Green Peppers** and **Eggplant** are expected to see a small gap in supplies as Florida will begin in mid-October. Next up in Florida will be **Organic Lettuces** and **Greens** in mid-November.

### OG SWEET POTATOES

Now is a great time to start thinking about big fall **Organic Sweet Potato** displays! All varieties are now new crop out of California and in plentiful supply.

A full variety of items are available, including bulk 40lb with PLU stickers of **Organic Garnet**, **Jewel**, **Oriental**, **Stokes Purple**, and **Hanna Sweet** varieties, as well as some value-added options, such as the 10/3lb **Organic Garnet Bags**, 12/2ct **Microwavable Jewel Trays**, 48ct **Wrapped Jewels**, and the 18/1lb **Baby Mix Trays**.

Be sure to use all these items to fill out your fall displays!

### OG APPLES

New crop Washington **Organic Honeycrisp Apples** are in good supply with prices moderating to expected levels. Sales have been good.

**Organic SweeTango Apples** are in peak season. This premium variety, with Honeycrisp parentage, is a flavor and texture-lovers treat during September and October.

New crop **Organic Gala Apples** are in excellent supply with easing prices and promotional opportunities available. Consider adding a bag option

**Organic Gold Delicious Apples** will come back into season and be in stock by 9/28.

The 2020 storage season of New Zealand and Washington **Organic Fuji** and **Granny Smith Apples** will finish up and will transition to new crop 2021 Washington fruit by mid to late September, without skipping a beat. Prices will be higher on the new crop.

### OG BERRIES

**NOTE: Organic Blackberry** supplies out of California continue to tighten each week. We will start to see sporadic gaps and higher prices. Mexico is expected to start producing right around the first week of October and should help straighten out the markets.

**NOTE: Organic Blueberry** supplies continue to get tighter as supplies decrease out of the Pacific Northwest and California. Peru is just beginning with very limited supply and high prices, but should ramp up later in September.

**NOTE: Organic Raspberry** supplies are tightening out of California. Expect sporadic gaps and high and rising prices.

**NOTE: Organic Strawberries** will remain in tighter supply as we head into the week of 9/20. We will see sporadic gaps, with prices increasing as we head into October.

### OG GRAPES

**Organic Green, Red, and Black Seedless Grapes** are in excellent supply. Don't forget to enter our Air Chief Organic Grapes Display Contest for your chance at some amazing prizes.

**Organic Thompson Biodynamic Grapes** from Marian Farms will be available sporadically for the rest of September.

**Organic Black Muscadine Grapes** are in season from the Carolinas.

**Organic Thomcord Grapes** are in good, steady supply.

### OG CABBAGE

Local **Organic Green and Red Cabbage** continues to see steady availability from Pedersen Farms in New York. Expect to see PA supplies begin harvesting in late September again.

**Organic Savoy Cabbage** will continue to be available from Vermont, while **Organic Napa Cabbage** will see better supplies in late September from California.

### OG POMEGRANATES

**Organic Pomegranates** from California are now available in steady supply for the 2021 domestic season. Four Seasons will offer larger fruit as it becomes available, but as we are starting with a 30-36ct 2-layer pack! Growers are expecting a good season!

### OG BROCCOLI & CAULIFLOWER

**Organic Broccoli** from California continues to experience less than ideal conditions. In September, supplies have become limited due to low yields caused by bug pressure. Quality has been subpar, and pricing has jumped significantly. These conditions look to remain in place as we head into October.

**Organic Broccoli Crowns** and **Organic Sweet Baby Broccoli** are experiencing the same issues and conditions, but because less acreage is grown on these items than **Organic Broccoli Bunches**, supplies are very limited.

**Organic Cauliflower** from California continues to have steady supplies and improved quality for September. **Organic Cauliflower** is expected to remain in good supplies for the end of the month.

### OG BRUSSELS SPROUTS

**Organic Brussels Sprouts** from Mexico are beginning to rise in price and see some limitation in supplies in mid-September.

New York production is beginning in mid-September and will provide some relief in supplies, but will also be at a higher price. Expect elevated pricing to continue into October.

### OG ASPARAGUS

**NOTE: Organic Asparagus** prices remain very tight for mid-September. Mexico has very limited production as new fields are just beginning, and although Argentina has started, supplies are steady but still limited. Quality should be excellent.

### OG PEARS

California **Organic Asian Pears** are in good steady supply.

**Organic Bartlett Pears** have transitioned over to Washington. Excellent quality and supplies should be expected with prices coming down.

**Organic Bosc Pear** supplies will be a little bumpy through late September as we transition from California to Washington. Excellent supplies will be available out of Washington as we move into October and prices will come down.

**Organic Red Pears** from Washington are in excellent supply and will be for the foreseeable future. Expect prices to come down as we move into October.

### OG PEPPERS

**Organic Orange, Red, and Yellow Bell Peppers** from Canada continue to see strong supplies in September.

**Organic Mini Pepper** from Mexico will return in mid-September as local production from Pennsylvania concludes. Expect pricing to be promotable in late September as supplies appear strong.

### OG SQUASH

**Organic Yellow Squash** remains strong in quality with production from Georgia and the Carolinas. Although pricing is still expensive in mid-September, volumes will continue to increase and cause pricing to become more promotable. Quality will continue to be strong for the remainder of September.

## OG POTATOES

New crop Canadian grown **Organic Red and Yellow Potatoes** are expected to begin in late September. Prices should remain elevated until we get into the Manitoba-grown **Organic Potatoes**.

## OG TROPICALS

**ALERT!** Rain continues to play a factor in **Organic Hass Avocado** supplies from Mexico. 48ct and larger continue to be in very high demand. Pricing is expected to stay higher until at least through the end of September when the new Aventajada crop should start to get going. The Mexican Flor Loca crop is winding down and yielded virtually no large-sized fruit this year.

**ALERT!** **Organic Mangos** will be winding down in late September from Mexico. Next fruit up will be from Ecuador in mid-October. We will likely have a few weeks gap on supply! 6 and 8ct fruit will be available while supplies last.

**Organic Pineapple** will be steady through September. We will offer both 6ct and 8ct Pines during this time.

**Organic Red/Magenta Flesh Dragon Fruit** will be available again for mid-September! Supplies should be steadier going forward.

- **ALERT!** **Organic Mini Cucumber** trays will be extremely limited for mid-September coming from Canada. Mexico has not begun production as Canadian production is all but finished and very limited.

- **Organic Euro Seedless Cucumber** prices will be steady for mid-September from Canada. Quality has been very nice.

- **Organic Mini Watermelon** prices are up for mid-September as supplies remain limited. The Navajo Pride deal has started but will be very limited from New Mexico. Quality is always exceptional on this variety.

- **Organic Artichokes** from California have recovered on supply volumes and are expected to

## OG KIWI BERRIES

**Organic Kiwi Berries** from Oregon are now available! Be sure to get some on your shelf while you can.

## OG TOMATOES

**Organic Snacking Tomatoes** from Lady Moon Farms will be available for mid-September. They are starting their last planting of **Organic Grape, Cherry, and Rainbow Cherry Tomatoes**, so the PA Deal will finish in early October. Quality continues to be excellent.

**Organic Roma Tomatoes** continue in season from King Family Farms in PA and from our hothouse growers in Canada. Production has been very limited, but quality excellent.

**Organic Heirloom Tomatoes** will be available with light supplies from Lady Moon Farms for mid-September as fields begin to finish for the season. Quality has been excellent.

**Organic Vine Ripe Tomatoes** continue in season from King Family Farms grown in PA for mid-September. Quality continues to be exceptional.

**Organic Beefsteak and Cluster Tomatoes** will be available for mid-September from Canada and Ohio. Quality has been exceptional. Product from Mexico is expected to start on Beefsteak in early October.

## OTHER STORIES

be steady in mid to late September. Although the supplies have improved, pricing remains elevated with excellent quality.

- **Organic Yellow Peaches and Nectarines** continue from both CA and Washington with very nice quality, and should be available until the end of September or possibly even the first week of October.

- **Organic Red Plums, Black Plums, and Pluots** are going to be very limited before finishing for the season before the end of the month.

- **Organic Grapefruit** supplies are extremely limited and are expected to remain this way with sporadic gaps heading into October until new crop is expected to begin.

## OG ONIONS

We have made a smooth transition over to some gorgeous Nevada grown **Organic Red Onions**. Pricing has remained steady through this transition. All other **Organic Onions** are steady.

## OG LETTUCE

**Organic Romaine Hearts** from California have seen price increases in September, but supplies have been consistently available, and quality remains strong. Expect sales to increase on **Organic Romaine Hearts** with the limitations on other **Organic Lettuces**.

**ALERT!** **Organic Leaf, Iceberg, and Romaine Lettuces** are extremely limited from various growing regions. New York supplies are still suffering the effects of Hurricane Ida's rain, Québec has experienced extremely dry weather, and California is suffering from warm weather and bug pressure.

All these issues are causing major limitations in the market, as well as extreme price increases. Supplies are expected to be limited, and we will see gaps in supplies during late September, however Québec shippers are hopeful they can resume harvest in late September. Some local production in PA and NJ is expected to begin. Adjust pricing accordingly, and expect limited supplies for the remainder of the month.

- **Organic Lemon** supplies are also very inconsistent with some fruit available from both Mexico and CA, but steady supplies are not expected until October. Water is at it's most scarce level in many years, and **Organic Lemon** supplies are suffering.

- **Organic Lime** prices are firm and lighter color fruit should be expected.

- **Organic Valencia Oranges** are in sporadic supply and should be expected to stay this way heading into October. Some Mexican product should become available in October, followed by new crop CA **Organic Navel Oranges** in November.

# GUIDE TO HARD SQUASH

## ACORN/GOLDEN ACORN

- Small and round like an acorn
- Sweet, slightly nutty vegetable flavored flesh
- Dark green skin, patched with orange
- Packed with fiber

## GOLDEN NUGGET

- Looks like a small pumpkin
- Sweet, orange flesh

## BLUE/GOLDEN HUBBARD

- Very hard skin
- Great for pie filling
- Excellent shelf life

## HONEYNUT

- Like a mini-sized butternut
- Flesh is much sweeter and has more squash flavor than butternut

## BUTTERCUP & KABOCHA

- Green skin
- Sweet & creamy orange flesh
- Kabocha aka "Japanese Pumpkin"

## RED KURI

- Japanese variety
- Orange exterior, yellow flesh
- Nutty & sweet

## BUTTERNUT

- Most popular hard squash variety
- Orange flesh
- Versatile in cooking, roasting
- Ideal blended for soup

## SPAGHETTI

- Mild & sweet flavor
- Flesh comes out like pasta strands when cooked - hence the name

## CARNIVAL

- Pale, orange flesh
- Relative of Acorn & Sweet Dumpling

## SWEET DUMPLING

- Mildly sweet
- Tender, orange flesh

## DELICATA

- Yellow flesh
- Tastes like a sweet potato
- Edible shell - no peeling needed!

## TURBAN

- Gets its name from its unique shape
- Use as decoration, soup bowl, or a floral arrangement

# CONVENTIONAL MARKET NEWS

SEPTEMBER 17 - SEPTEMBER 24, 2021

## FALL GRAPES ARE IN FULL SWING!

**Candyland Grapes** are here, and they're awesome! We have good supplies on **Candy Crunch**, **Candy Dreams**, and **Candy Snaps**. The week of September 20th we'll have better volumes on the 4th variety – **Candy Hearts**. This is a perfect specialty, high flavor grape to offer your customers in addition to the black, green, and red grapes.

**Red and Green Seedless Grapes** are in excellent supply from California, and the quality has been absolutely incredible. We will continue into the month of October with the **Scarlet Royal** on the **Red**, and now we have the **Green Emerald** on the **Green**.

The **Green Emerald** is a phenomenal grape with impressive sizing and packs a crunch. Both varieties are definitely the best in season right now so promote away on **CA Grapes**.

**Harvest Hobgoblin Grapes** from Dulcich Farms have started for the season, and we'll have our first arrival by 9/25! Get ready to promote these outstanding grapes as we head into Halloween. Each color **Grape** will have the best of the season varieties, featuring **Midnight Beauty** on the **Black**, **Green Emerald** on the **Green**, and **Scarlet Royal** on the **Red**. This is a limited offering, so enjoy promoting this program as we head into late October.

### CV MELONS

**Cantaloupes** remain in excellent supply from Turlock Fruit in California. As we enter the backend of the season, we're seeing the size profile drop back. Instead of lots of amazing jumbo 9ct cartons, we will begin to see more regular 9ct, but mostly 12ct as we head into October. Continue to promote these great eating **Cantaloupes**.

**Honeydews** are beginning to wind down for the season. Expect more limited supplies and higher pricing as we head into October.

### CV BERRIES

**NOTE: Strawberries** are in better supply heading into the week of 9/20 versus the heavy prorates of the prior 2 weeks. It seems like Salinas and Watsonville, CA volumes have increased slightly, and there's more fruit available. Look for steady supplies now as we head into October. Fruit size is definitely smaller. Quality is expected to improve a little.

**Raspberries and Blackberries** are in steady supply from California. Quality has improved slightly, but the weather conditions continue to be a challenge in California. We should see supplies and quality improve as we begin the Mexican crops in October.

**ALERT! Blueberries** remain in extremely tight supply. Pricing will remain much higher than usual for the remainder of September, and some believe this could last into mid-October. Quality has been excellent on all import **Blueberries** from Peru, and additional supplies from Columbia should start soon as well. Most of the volume right now is currently in 12/1 pints.

### CV APPLES

**Sweetango Apples** from New York have started and will arrive the week of 9/20. At this point, the crop looks to be running much larger than expected, so our first arrival on trays will be mostly 72ct. Great ready for this fantastic apple!

**Honeycrisp Apples** from Washington have been absolutely beautiful. We've been sourcing all premium grade, and these apples have incredible high color, and simply look amazing. Sizing is mostly in the 80/88 range, but now is a great time to promote all new crop **Honeycrisp Apples**.

**Granny Smith Apples** are in much better supply from Washington. We will begin to see pricing slide over the next couple weeks as we head into October. Quality on all these premium boxes has been excellent.

### CV SQUASH

**Green Squash** prices will be promotable for mid-September. Local PA, NJ, and NY growers are all still harvesting nice quality and supplies. NC and GA are also beginning new crops, leading to very promotable volumes. Quality has been excellent.

**Yellow Squash** prices will begin to ease off for mid-September as new crops from Georgia and North Carolina begin. Quality has been very nice.

### CV PINEAPPLES

**Pineapples** are very promotable for mid-September as pricing will be lower than it has been all summer. Look specifically to promote 6ct and 7ct sizing!

We will also be offering the popular **HoneyGlow Pineapples** from Del Monte in 5 and 7ct sizing. The taste and quality of this fruit are outstanding.

### CV PEARS

Washington **Bartlett, Bosc, and Starkrimson (Red) Pears** have started for the season, but the **D'Anjou Pears** are delayed.

Unfortunately, the first couple **D'Anjou Pears** harvests did not yield the amount of fruit that was expected, so the first arrivals of **D'Anjou** with good volume might not arrive to the east coast until the last week of September. So far, the new crop pears are looking excellent!

### CV GREEN BEANS

**Green Bean** prices remain strong for mid-September. Local growers are slowing down production and new regions have not yet begun, causing short supplies and higher prices. Quality still remains excellent from local PA, NJ and NY production.

### CV ASPARAGUS

**Asparagus** prices will stay high for mid-September as product from Mexico and Peru continues to be tight. New farms are looking to start up, but production is light. Expect much more promotable pricing during the month of October.

### CV WATERMELONS

**Watermelons** are steady for mid-September. The transition from **Watermelon** bins to pumpkin bins on the sales floor has left prices steady. Quality coming from DE and NC has been very nice.

### CV STONE FRUIT

**Peaches and Nectarines** from New Jersey are in the final week of the season. Quality has been outstanding right up until the end, so let's close out this season strong. Thank you for a great local stone fruit season!

### CV BIN BROCCOLI & CAULIFLOWER

PA grown **Bin Stem Broccoli** is expected to be harvested the week of 9/20 with stronger numbers headed into October. Due to Hurricane Ida effects, it looks like fields will be ready at the same time which will make for a shorter season.

PA grown **Bin Jacket Cauliflower** is expected to be first harvested around mid-October.

### CV BROCCOLI & CAULIFLOWER

Quebec and CA are experiencing **Broccoli** field gaps, and ME cannot keep up with the demand. **Broccoli Crowns** are limited, and prices are expected to hold strong if not bump up again.

12ct **Cello Cauliflower** is readily available.

### CV POTATOES

Large sized **Idaho Count Russet Potatoes** have started to come off on price for mid-September as product is starting to size up a bit better out of Idaho.

### CV ONIONS

We will see an abrupt end to the **PA Simply Sweet Onion** program for mid-September. However, we will have a seamless transition directly into some beautiful **Mayan Sweet Onions** out of Peru.

### CV AVOCADOS

**Hass Avocados** continue to command a premium price for 48ct fruit and larger (if available). Pricing should finally start to come off by the end of September.

### CV TOMATOES

**Cluster Tomatoes** will remain promotable for mid-September as prices remain at the minimums. Supplies are coming in strong from Mexico as Canada continues to harvest as well. USA production is about a month away from new crops starting.

**Beefsteak Tomato** prices will rise very slightly for mid-September. Demand has been good, and supplies are steady. Quality has been excellent from Canada and new Crop Mexico.

**Grape Tomato** prices remain fairly strong for mid-September. Local production is finishing up very quickly. Tennessee production is low, and product is tight. Mexico continues to have steady supplies. Quality overall has been excellent.

**Cocktail Tomato** prices remain steady for mid-September. The **Campari** variety will look to make a strong comeback in October with promotional periods offered as well.

**Roma Tomato** prices raised for mid-September as Tennessee production begins to slow down. Mexico and California supplies are light. Quality has been exceptional from all regions.

**Vine Ripe Tomato** prices remain stronger for mid-September. Local harvests are slowing down but remain available. Tennessee continues to have supplies as well as California. Quality has been excellent from all regions.

### CV CUCUMBERS

**Euro Seedless Cucumbers** will be steady for mid-September out of Canada. Quality has been nice, and harvests are light, leading to tighter supplies.

**Mini Seedless Cucumber** prices will remain on the higher side for mid-September. Production out of Canada is finishing up and Mexico has not yet begun harvesting. Supplies are tight but quality has been nice.

**Super Select Cucumber** prices will be strong for mid-September. New areas in GA and NC have begun harvests and demand is strong as local production is slowing down and experiencing quality issues from recent heavy rains.

### CV PEPPERS

**Green Bell Pepper** prices remain steady for mid-September. Local harvests continue and new crop Georgia is beginning as well.

11lb **Red, Orange, and Yellow Pepper** prices will be steady for mid-September. Canadian production continues to finish up as Mexico is just beginning for the season. Quality has been beautiful from both areas.

**Mini Sweet Peppers** will be promotable for mid-September from Mexico. Quality has been excellent, and harvests are strong.

## OTHER STORIES

- CA and Quebec are seeing a decline in **Lettuce** harvest numbers. Availability is tight and prices are getting higher.
- **Brussels Sprouts** are starting to see relief in pricing. Better availability across major vendors.
- There is a brief push on 12ct **Artichokes**, then they are expected to be limited again.
- **Mangos** are steady with fruit from Puerto Rico and Brazil. We will offer 6, 10, and 12ct sizing.
- **NOTE:** California **Fresh Figs** have seen heat slow down production the past few weeks. Prices have increased a few dollars as a result.

- **Quince** will be available once again from California in a 32-36ct single layer pack!
- **NOTE:** **Dragon Fruit** from Florida dried up very quickly and supplies are very tight in all varieties. We should begin to see some fruit coming from Ecuador, but that season has been slow to come on.
- **Pomegranates** from California are in full swing! Quality has been excellent.
