2 FORKFULS A DAY, FOR BETTER GUT HEALTH

At Cleveland Kitchen, we believe in creating world-class culinary fermented foods for all. Fermented foods are regularly consumed within European and Asian cultures and we invested in finding a way for American consumers to simply and deliciously do the same.

Our team truly believes that fermented foods are a key to a healthier diet and we want to make it effortless for people to savor them in any occasion.

Our team is extremely proud of our Cleveland heritage and thoughtfully source ingredients locally from Midwest farmers. It is an honor to support and uplift farms that we can personally collaborate with in our local Ohio community.
