

FRIDAY, MARCH 13, 2020 – CORONAVIRUS (COVID-19) MESSAGE FROM FOUR SEASONS PRODUCE, INC.

We are grateful for you, our business partners, and our associates, during this unprecedented outbreak situation. We are doing everything we can do keep our associates safe and serve our customers. As part of the food supply chain, we take our role seriously in keeping retailers and other buyers supplied with fresh foods.

Amidst the CoronaVirus situation that is changing from moment to moment, we'd like to update you on what we're doing in addition to our existing Good Manufacturing Practices (GMPs) and FDA requirements.

- Increased sanitation frequency of common spaces, equipment, handles and other surfaces
- Added sanitizing stations around the facilities and equipping our drivers with sanitizing supplies
- Reinforcing our existing policies for hand-washing and other hygiene GMPs
- Increased social distancing including: restricting visitors, meetings, and non-essential business travel

Our retailer partners have been seeing extremely strong demand as consumers eat out less and stock up at the stores for eating at home more. For the weekend of March 13-16, we are expecting order volumes to challenge our selection and delivery capacity as well as inventory fill-rates. We appreciate your understanding in this unique situation.

In partnership,

Jonathan K. Steffy

VP & General Manager | Four Seasons Produce, Inc.

ORGANIC MARKET NEWS

MARCH 13 - MARCH 20, 2020

ORGANIC CALIFORNIA CITRUS UPDATE

Overall, **Organic Citrus** sales are very strong! March remains a smart time for promotion.

Organic Navel Oranges are in excellent supply with prices coming down on all sizes and bags! **Organic Cara Cara Oranges** continue in peak season with strong demand.

Organic Blood Oranges are in lighter supply and setting higher prices. Fruit will size down over the next couple of weeks and we will be forced into 113ct fruit to the finish line in late March and April.

Organic Mandarins in bulk and bags continue in excellent supply. The "Cutie" brand **Organic Mandarins** have finished for the season. Homegrown 2lb pouch bags and Sunkist 2lb mesh bags will be the primary options.

Organic Pummelos will finish for the season by mid to late March.

Organic Minneola Tangelos are expected to be in and out due to strong demand and sporadic packing.

Organic Grapefruit is starting to firm up as supplies wind down from peak season in California.

Organic Lemons out of California have begun tapering off. Expect supplies to tighten and prices to remain steady for a few weeks then ramp up. Quality remains very nice! **Organic Meyer Lemons** are winding down for the season will wrap up close to April.

ALERT! Organic Lime supplies out of Mexico are sporadic with seasonal quality. Expect lighter fruit with some blanching and yellowing. Prices are rising quickly.

Buck Brand **Organic Specialty Citrus** items available this week:

- OG Centennial Kumquats
- OG Heirloom Navel Oranges
- OG Star Ruby Grapefruit
- OG Mango Valencia Oranges
- OG Sour Marmalade Oranges
- OG TDE Triple Cross Tangerines

OG ASPARAGUS

Fresh crop **Organic Asparagus** from Mexico is very promotable for March. Quality has been excellent all season and strong. Sell with extreme confidence. 28lb cases are available.

Talk to your sales rep or merchandiser for information on our Hippie Organics Asparagus Display Contest.

OG BERRIES

Organic Blackberries from Mexico are in season but firming up in supply. Expect prices to increase, but it is still a promotable berry!

Driscoll's **Organic Blackberries** out of California and Mexico are in slightly better supply this week with strong but steady prices.

Organic Raspberry supplies out of Mexico and California are ramping up. Expect prices to come down over the next few weeks.

Organic Blueberries out of Chile are in much firmer supply than expected and prices are on fire. Some Mexican fruit is expected to start to ramp up by April, hopefully decreasing prices slightly and filling the gap.

Driscoll's **Organic Blueberries** continue in firm out of California and Mexico with excellent bloom, size, and flavor. Supplies are limited until April.

ALERT! Organic Strawberry supplies have tightened due to heavy rain for mid-March. Expect pro-rates and occasional out-of-stocks until peak volumes ramp up for April following March's rain issues.

OG LETTUCES

ALERT! Organic Iceberg and **Romaine Hearts** from Arizona and Southern California look to be tightening in supply during mid-March. Although product is available, expect to see pricing begin to rise in mid to late March. Due to heavy rains in both regions, conditions and being close to transition time, pricing is expected to continue to rise and product remain limited for the remainder of the month.

Organic Leaf Lettuces from Lady Moon Farms in Florida continues to see plentiful supplies. Look for promotional opportunities on these beautiful leafy greens.

OG BROCCOLI

ALERT! Organic Broccoli and Broccoli Crowns from Arizona, Mexico, and Southern California have become very limited in mid-March and pricing is up sharply. With heavy rains in the south during mid-March there may be inconsistent quality.

As the desert season is coming to an end in late March in Arizona and Southern California, and suppliers begin to transition north to the Central Coast, expect to see limited supplies and pricing to continue to rise into April.

OG GREENS

Organic Kales, Collards, and other greens from Lady Moon Farms in Florida continue in excellent supply, stellar quality, and great pricing.

Organic Fennel and Dandelion from Lady Moon continue to see very high volumes during harvest – continue to promote!

Organic Rainbow Chard from Lady Moon Farms in Florida continue to be in steady supply. Organic Red and Green Chard will be available from CA.

OG CUCUMBERS

Organic Euro Seedless Cucumbers from Canada and Mexico have begun to flush in early March. Look for promotional opportunities on this greenhouse grown product!

Organic Mini Cucumbers continue to be in steady supply. Prices are expected to begin to fall in mid to late March.

ALERT! Organic Cucumbers from Mexico will continue to be in extremely limited supply with sporadic gaps. Pricing has skyrocketed and is expected to remain that way.

OG ARTICHOKE

Organic Artichokes continue to be available from California in early March. Although quality is excellent and expect to see inconsistent sizing and supplies, as well as short product gaps for mid-March. Pricing will continue to be steady and quality will remain great.

OG MANGOS

Organic Tommy Atkins Mangos from Mexico are now in season! Fruit will be sizing larger than normal for the first part of the season. 10 and 12ct sizes may be slightly limited, but 9ct are promotable.

Organic Honey (Ataulfo) Mangos are promotable for next week. We will have nice sized 14ct fruit here!

OG BRUSSELS SPROUTS

Organic Brussels Sprouts from Mexico continue to see plentiful volumes and excellent quality, but prices are starting to increase.

Organic Purple Brussels Sprouts from Mexico are also available!

OG HASS AVOCADOS

ALERT! Organic Hass Avocados supplies will be very tight for mid-March. Little to no fruit crossed the borders this week, putting suppliers in a very tough position. California fruit will be available in limited supplies for the first time here at Four Seasons. We will have 48ct fruit.

ALERT! 48ct and 60ct Organic Fair-Trade Hass Avocados will be extremely limited next week.

OG CAULIFLOWER FLORETS

ALERT! Organic Cauliflower Florets will be very tight for the next few weeks. Significant aphid pressure at the field level has begun to hurt yields and limit overall availability.

Any Organic Packaged Veg item with Organic Cauliflower Florets in it may experience shortages.

OG CAULIFLOWER

ALERT! Organic Cauliflower from Arizona and Southern California continue to be limited as some shippers have limited harvest yields or are even completely out.

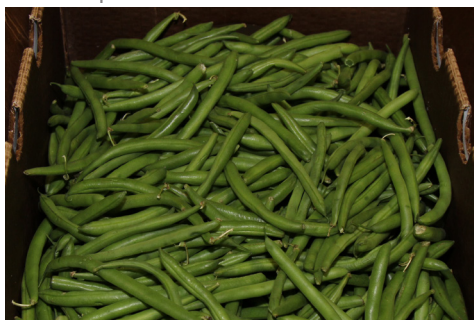

Expect pricing to continue rise in March and stay elevated until late month as heavy rains in the South are causing shippers to not harvest.

OG SQUASH

Organic Yellow Pitahaya/Dragon Fruit will be back in stock for the week of March 22nd! This delicious fruit was a hit last time we had it in stock! This will likely be the last chance to get it this year.

Organic Tainung (Maradol Style) Papayas and **Caimito (Star Apples)** are available from our Florida grower.

OG GREEN BEANS

Organic Green Beans are seeing steady supplies from both Florida and Mexico in early March. Quality from both areas remains outstanding and pricing has leveled out for mid-March. This is a great time to promote.

OG GRAPES

New crop Argentinean **Organic Bartlett Pears** continue in good supply and this should be expected all season.

Organic Red Bartlett and **Abate Fetel Pears** are coming into season and will start being available for late March.

Washington **Organic Pears** are basically wrapped up for the season.

OG APPLES

Organic Apple prices out of Washington continue pushing up as most fruit is wrapped up in cold storage and sporadic purposeful packing is taking place. There is still plenty of fruit and imports are on the radar. Expect the first imports to start towards the end of March early April.

Organic Envy, Fuji, Granny Smith, Jazz, Kanzi, Lady Alice, Opal, Pinata, Pink Lady, and Red Delicious Apples continue in good supply.

NOTE: **Organic Gala Apple** prices will rise as some of the smaller shippers are done for the season and the shippers with fruit locked up in storage are not packing to tighten markets and attempt to open a year-round domestic program.

NOTE: **Organic Honeycrisp Apple** prices continue to head higher as supplies are on the way down.

OG TOMATOES

Organic Roma Tomato prices have come down as production begins to come on stronger. Quality out of Mexico has been excellent and supplies are steady.

Organic Beefsteak Tomatoes will be steady this week. Quality out of Canada is excellent and some Mexican production has begun as well.

ALERT! **Organic Cluster Tomato** supplies will be extremely short this week. Mexican harvests have been cut down and Canadian production has not yet started. Expected shortages and gaps in supply.

NOTE: **Organic Grape Tomato** prices markets will be higher than normal this week. Florida and Mexican production has been in transition from winter to spring crops, leaving shorter supplies.

New crop **Organic Cherry Tomatoes** will be available again this week out of Canadian hothouses. Quality is expected to be sharp on these fresh picks.

Organic "Darkloom" Heirloom Tomatoes will be unavailable this week as weather has taken its toll on harvests. **Organic Mixed Heirloom Tomatoes** will be available but may gap in supplies as volume from Mexico is still limited.

OTHER STORIES

- Organic Eggplant** from Lady Moon Farms in Florida will see steady supplies in mid-March. Prepare to see Mexican Eggplant supplement Lady Moon during March if they should see any limited supplies, with Mexican product being at a better price point. Quality on both areas will continue to see beautiful quality.

- Organic Sweet Baby Broccoli** supplies have tightened. Expect to see inconsistent supplies and rising prices to continue.

- Organic Broccoli Rabe** from California continues to have steady pricing and availability.

- Organic Young Thai Coconuts** and **Formosa Papayas** are in steady availability for mid-March.

- Organic Pineapple** volumes will be a little tight again for mid-March, but pricing will be steady.

- Organic Kiwifruit** are promotable right now! Both 36sz and 33sz fruit will be available for mid-March.

- Organic Celery** and **Celery Hearts** continued to see great supplies, excellent quality, and aggressive pricing from California. As we continue into mid-March, we may see supplies tighten, however pricing is not expected to skyrocket. Continue to promote.

OG PEPPERS

Organic Green Peppers are in steady supply now harvesting in Florida and Mexico.

Organic Colored Bell Peppers from Israel and Mexico are both currently in season. Availability from Israel has been consistent, however pricing as began to take a tick up as we come closer to the end of their season. Mexico is beginning to see better supplies and aggressive pricing in early March.

Organic Mini Sweet Peppers from Mexico are in excellent supply and retail demand is strong on this snackable item.

- ALERT!** **Organic Zucchini** and **Yellow Squash** have become very limited in early March. Expect to see inconsistent supplies and pricing on the rise due to extremely cold weather during the early stages of growth. Supplies from Florida should begin in March in a limited way on **Organic Zucchini**.

- Organic Grapes** out of Peru continue with sporadic supply of **Organic Red Seedless, Green Seedless, and Red Seeded Grapes** in 18lb cases. South African **Organic Green, Red, and Black Grapes** are available in 10lb cases.

ORGANIC ASPARAGUS

HIPPIE ORGANICS®

DISPLAY CONTEST • MARCH 16 - 31, 2020

Four Seasons Produce has partnered with Hippie Organics to bring you a display contest sure to “spear”-head produce sales! Beautiful organic green asparagus is in season and primed for center stage in your produce departments! March is a great time to promote this vegetable favorite and bragging rights are on the line for this first time contest. Let’s get creative, build some awesome displays and put some green asparagus into your customers carts while putting green into your registers!

CONTEST RULES

- Build a super creative display of Hippie label Organic Asparagus (code 40324) in your produce departments. Asparagus must be purchased from Four Seasons Produce.
- Must purchase a minimum of 6 cases of Hippie OG Asparagus to qualify for entry.
- All displays must be kept up for at least one week.
- Stores must cross merchandise at least two items in your displays. Great tie ins for asparagus include Hollandaise sauce, lemons, olive oil, parmesan cheese and pasta.
- Stores must utilize Point of Sale signs provided by Hippie Organics. Graphic boxes can also be used. Signs are available through your Four Seasons Merchandiser or Sales Rep.
- All pictures must be sent to Stephanie Mayer (stephf@fsproduce.com) by Thursday April 2nd.

PRIZES

Largest Display- (Asparagus Abundance)

1st--\$250
2nd--\$125
3rd--\$75

Most Creative Display- (Asparagus Artists)

1st--\$250
2nd--\$125
3rd--\$75

There will also be one honorable mention in each category worth \$50!

Every entry will receive a Hippie Organics tote bag and cool pop socket!!

Talk to your Four Seasons Sales Rep or Merchandiser for Organic Asparagus display tips and ideas!

SUNKIST CITRUS BONANZA DISPLAY CONTEST

MARCH 2 - MARCH 30, 2019

Four Seasons Produce has again partnered with Sunkist Growers to offer up a contest with massive sales potential! We are in full swing with the citrus season and some of the best tasting fruit will come in March! Time to create your own "March Madness" and grow your sales in the citrus category!

CONTEST CRITERIA:

- Build a BEAUTIFUL display of Sunkist citrus using fruit purchased from Four Seasons Produce
- Displays must contain at least **4 varieties of conventional fruit** OR **3 varieties of organic fruit** to qualify
- Displays must contain Sunkist POS signage or bins which are available through your Four Seasons sales rep or merchandiser.
- All displays must remain up for at least one week.
- Pictures of displays must be submitted to Stephanie Mayer (stephf@fsproduce.com) by April 3rd.

Now is a great time to get consumers to try something new, and sampling is the easiest way to do that! While not criteria to qualify, it is a great way to sell fruit and create impulse sales!

PRIZES:

(DISPLAYS WILL BE JUDGED OFF OF CREATIVITY, USE OF SUNKIST SIGNAGE/BINS, AND OVERALL EYE APPEAL)

CONVENTIONAL MARKET NEWS

MARCH 13 - MARCH 20, 2020

FLORIDA SWEET CORN OUTLOOK

Florida **Sweet Corn** is coming in very nicely right now. Expected to be another strong season with exceptional quality. Pricing will be mostly programmed out starting March 30 through May.

Sweet Bi-Color Corn is expected to come in strong early, and the be the main type available. **White Sweet Corn** will trickle in later in April. More farmers continue to switch over to popular Bi-Color varieties, leading to less White available.

CV ASPARAGUS

Great deals to be had on fresh **Asparagus**!

Asparagus prices remain very promotable this week. Quality out of Mexico has been exceptional this season. Continue to promote this week with confidence in March.

CV BERRIES

ALERT! Strawberries will be in much tighter supply this week out of all growing areas. Florida growers will be battling excessive heat, while growers in Oxnard, CA are expecting rain over the course of the entire week. Look for pricing to climb as supplies become more limited.

Raspberries and **Blackberries** will be in good supply from Mexico. Now is a good time to promote both berries especially with strawberries becoming tighter.

NOTE: Blueberries are slowly coming in from Mexico, and the quality is excellent. Most growers are only packing in 6oz at the current time, but that will begin to change over to Pints by the end of March. Imports from Chile are winding down, and the late season quality is declining.

CV ROW CROP VEG

ALERT! Iceberg, Leafy Lettuces, and Romaine Hearts have become limited in supply due to heavy rains. Prices are climbing.

ALERT! Broccoli Crown volumes became tight very quickly. Mexico, AZ, and CA have been the main suppliers. Some Mexican growers are coming to an end on their season, AZ is starting to transition back to CA, and some are seeing lighter supplies. Heavy rains will slow down fields, so expect supplies to continue to get tighter.

ALERT! Cauliflower was tight to begin with, and now with rain in AZ and CA, supplies will be even tighter. Prices continue to climb.

CV GRAPES

We are starting to see the **Grape** markets start to strengthen especially on the **Green**. Look for **Green Grapes** to continue to go higher as we move towards the end of March and going into April.

Red Grapes will firm up as well but should remain steady through the end of the month. Mexico is not far off, with some early fruit possibly starting in early April with more volume starting at the end of April.

The start of Mexican **Grapes** is a little sketchy because of the weather in the early districts. Growers have seen the weather warm up one week, then get rainy and cold the next. We should get a better outlook in late March.

CV CUCUMBERS

Euro Seedless Cucumber prices remain very promotable this week. Canadian and Mexican harvests are off and running to start leading to a lot of supplies. Quality has looked sharp from both growing regions.

ALERT! Super Select Cucumber volumes are tightening up as both Mexico transitions into spring harvests. Florida has begun production with very limited yields to start.

Offshore Honduran **Cucumbers** are starting to wind down for the season with another week or 2 of shipping.

CV MANDARINS

NOTE: As we move into the latter part of the **Halo Mandarin** season from California, we will run into some hurdles into the last six to eight weeks. Volume will start to drop off and we will have to order ahead to guarantee supply.

The next hurdle will be size. We should see 28's and larger fruit through the end of March, but then size will fall off and we'll see more of the 36 and 40 size. Most of April and going into May will be the smaller sizes and we will have to see how quality holds up late into the season.

CV GREEN BEANS

Green Bean prices are very promotable this week. Growing conditions have been excellent to leading to great supplies and quality.

CV CABBAGE

Green Cabbage remains very promotable ahead of St Patrick's Day. Quality has been excellent out of Florida.

CV WATERMELONS

Seedless Watermelons remain tight out of Mexico with some offshore product still coming in. Florida is expected to be in new crop harvests by the end of the month.

CV BRUSSELS SPROUTS

25lb **Brussels Sprouts** stopped flowing out of Mexico with full force. CA/AZ growers bumped up in price due to supply and demand. Large volumes are no longer available. With recent rain in the desert, **Brussels Sprouts** have the potential to keep climbing in price.

CV RHUBARB

We've been receiving 15lb hothouse **Rhubarb** from Washington, but this will wind down fast and there will only be a handful available for the remainder of the month.

Field Rhubarb from Washington will start the first week of April.

Local PA Rhubarb may be available in the end of May or early June.

CV EGGPLANT

ALERT! Eggplant prices have become high as the transition from winter to spring harvests is leading to short supplies. Quality out of Mexico has looked good and expect Florida to start harvests by the end of the month.

CV TOMATOES

Vine Ripe Tomatoes are available, and prices are steady. Quality and size have been very nice as these are crown picks.

Beefsteak Tomato markets are coming up some from Canada and USA greenhouses. Quality has been exceptional all season from both areas. Demands are strong as Mexico continues to rebound from a tough winter.

Cluster Tomato prices will be high with limited availability again this week. Mexico has yet to rebound after a tough winter and the demand on Canadian and US production is strong. Quality has been great.

ALERT! Grape Tomatoes are steady this week, expect no changes from Florida. Quality has been sharp.

Roma Tomato prices are starting to come up a bit as Mexico continues to struggle with production. We continue to ship mostly Florida product and quality has been great.

CV TROPICALS

Pineapples will be in good supplies for next week. Quality has been good. Pricing will ease slightly for next week.

Mango supplies from Peru are winding down and Tommy Atkins from both Brazil and Mexico will be in season. With fruit transitioning out of Peru, pricing has spiked a bit but should level off by late March.

Ataulfo Honey Mangos will be in steady supply from Mexico for next week. Promote!

Young Thai Coconuts will be in great supply and are promotable.

White Dragon Fruit and **Yellow Pitahaya** continue to be available from Ecuador right now. Fruit quality has been very nice.

Hass Avocado prices continue to stay elevated despite supplies starting to rebound. Pricing should be steady for mid-March.

CV PEPPERS

Mini Sweet Peppers remain promotable this week out of Mexico. Prices are starting to stabilize as the flush cleaned up, however quality and markets remain promotable.

11lb Orange, Red, and Yellow Pepper prices are starting to stabilize this week. **Orange Peppers** have cleaned up and prices are coming up. **Yellow** and **Red Peppers** still remain promotable out of Mexico. Canadian harvests have just started, and we will expect to transition in the next week into new crop Canadian product.

Green Peppers remain strong. Florida has started their new crop spring harvests; however demand has been strong as Mexico is in a skip of production. Quality has been nice on the crown picks.

CV SQUASH

NOTE: Green Squash prices remain tight out of Mexico as transitions are occurring along with some cooler weather. Quality has been very nice; however, product is limited.

NOTE: Yellow Squash markets remain tight and expensive. Plants took a beating this winter and crops have never rebounded. New spring crops are waiting to be harvested. Expect better prices in the beginning of April.

Size: 32 lb

One of the larger species of papayas, the Formosa variety is similar to the popular maradol or tainung varieties in size. One main difference is that the skin will turn only greenish-yellow in color when ripe. Maradol and Tainung variety turn completely yellow to dark yellow in color when ripe. The Formosa variety has a great mild flavor. This ORGANICALLY grown fruit is available all year round, making it a great option as a staple in your tropical fruit displays!
