MON 05/28 MEMORIAL DAY – Standard delivery schedule. Sales office open with limited staffing 8:00am to 12:00pm for changes to orders for Tuesday delivery.

TUES 05/29 AND WED 5/30 - Standard delivery and office schedule.

The week before Memorial Day will be one of the heaviest volume periods of the year. Let's collaborate for success. We are asking customers to bring product in early and order big promotion items by the full pallet (when possible) to take pressure off our order selection and delivery capacity.

**For clarification or special requests on this schedule, please contact your Sales Rep. or Merchandiser. Here's to a successful big picnic holiday!

MERCHANDISING TIPS

• Your **fruit counters** should be reset with fresh crop stone fruit, soft fruit, grapes, and melons by Thursday, May 24th. Cut back on Apples, Pears, and Citrus. Don't play catchup through the holiday weekend, especially on the seasonal product.

• Expand your **berry sections.** Full variety is available on Organic and Conventional Berries.

• Your vegetable counters also need to have some adjustments made. Cut back the spacing on the hard cooking vegetables such as turnips, winter squashes, parsnips, etc. Key items to expand: Corn, Lettuces, Tomatoes, Celery, Cabbage & Slaw Mix, Green & Colored Peppers, Cucumbers, Radishes, Scallions, Portabella Mushroom Caps & Slices, Sweet Onions, and New Potatoes.

• Drive sales and margin through **melon displays.** Fine sharp price points for whole melons and also build large refrigerated or ice displays of cuts and halves, sold at higher per pound prices. This extra margin on cuts will provide nice profit mix and options for shoppers.

POPULAR DISPLAY THEMES

VEGGIE GRILLING:

Try a display that includes: Vidalia Onions, Colored Peppers, Asparagus, Portaballa Mushroom Caps & Slices, Eggplant, Count Russet Potatoes, and Green & Yellow Squash. You might even want to try a combination of these items at a common price per pound. Tie in "Garlic Expressions" and other marinades, and minced garlic.

CORN CRAZY:

Build a large, secondary display of Sweet Corn, using a bin dummied up to control your display quantities. Position a clean trashcan at the display for your customers to shuck their corn. To make very good margin, trim, strip, and tray-pack 5 ears of Sweet Corn and get premium retail for the added value and convenience.

TOMATO PATCH:

Create mass displays using Grape, Vine Ripe, Beefsteak, Cocktail, Brown, Heirlooms, Mixed Cherry, and Cluster Tomatoes. Be sure to add basil to these displays.

DELIVERIES & PLANNING

• Order your hard goods and semi-perishables to hit your store early - by Tuesday, May 22nd or Wednesday, May 23. Get 'em in and load up the department. These are items that you don't want to be fooling with come the weekend: Salad Dressings, Dips, Salsa, Juices, Croutons, Fruit Dips, Nuts, etc. Have your evening associates pack out these sections at night. Avoid that congestion in your aisle during business hours.

• Bring in your **hard vegetables** and **Fruit** by **Thursday, May 24th.** These lines and items include: Potatoes, Onions, Carrots, Mini Carrots, Apples, Pears, Oranges, Lemons & Limes, Honeydew, Cantaloupe, Pineapples, and bin Watermelons.

• There is no need to be overly cautious with **bin Watermelons**. This is only the beginning of the summer picnic season. Your risk is low even if you have a few extra melons after the holiday. Store Watermelons at room temperature.

• Bring in your **Sweet Corn** by the pallet and try to have it in by **Thursday, May 24th**, and **Friday, May 25th**, and keep it watered or iced down. 42 cases per pallet.

SMART TIP:

Don't be stuck waiting on a truck. Load up early and attempt to spread your tonnage throughout the week to help level the volume.

CV CALIFORNIA STRAWBERRY PEAK SEASON

Strawberries from California are ripe for promotion for the rest of May.

All growing regions in California are producing very strong numbers. Supplies are well exceeding demand, creating spot deal opportunities!

Driscoll's is also shipping a **"Special Pick Jumbo"** 28 oz pack that features XLG berries with great flavor.

CV SWEET CORN

ALERT! Heavy rains in Florida are bringing **Sweet Corn** harvests to a slow grind. This is will significantly **impact Sweet Corn** load volume availability for Memorial Day that was not pre-booked ahead of time.

There will be **Sweet Corn** available, but just not some of the extra volumes that large holiday ads could tap into.

CV MELONS

Athena-style Cantaloupe bins from Florida are in stock. The first arrivals have been nice! Florida rains may hamper production for later in May.

We have started to source **Melons** from Mexico and Arizona. The off-shore **Melon** deal is just about cleaned up. Volumes will increase in the coming weeks, but demand will be strong with Memorial Day and no more off shore fruit. Freight rates will also be a contributing factor to the higher than normal costs.

CV ASPARAGUS

Better supplies are expected overall this week on **Asparagus**.

Michigan has started and will continue to produce better numbers headed into June. This will help take some pressure off of the local NJ supply.

Look for prices across all regions to ease down with the better supply numbers.

MAY 18 - MAY 25, 2018 | MARKET NEWS 20 18 | FOUR SEASONS PRODUCE

CV CUCUMBERS

Field Cucumbers have transitioned from Florida to Georgia. We should see pricing and availability improve over the next week.

Canadian **Hothouse Cucumber** growers are replanting their greenhouses and will have lighter production until late May.

CV LOCAL GREENS

Look for New Jersey-grown **Chard**, **Collards**, and **Kale** this week. Flaim Farms (Vineland, NJ) is reporting excellent quality.

CV ARTICHOKES

Artichokes will be a great item to promote this week. Deals are available on smaller-sized Artichokes.

CV CABBAGE

Green, Red, Napa, and **Savoy Cabbage** have seamlessly transitioned from Florida to Georgia. Pricing and quality on Georgia **Cabbage** are excellent.

CV BLUEBERRIES

ALERT! Blueberry supplies will remain very limited this week. Rain in Georgia has caused more supply interruptions. Prices will be very strong for Memorial Day.

North Carolina will just begin to harvest some fruit. It will take another week to get supplies levels back to more "normal" numbers.

CV WATERMELONS

Rain in the south has caused some **Watermelon** harvesting issues in Florida. Demand is starting to increase as we get closer to Memorial Day. Look for high prices heading into the holiday.

CV IMPORT CITRUS

CALIFORNIA CITRUS:

Bag **Mandarins (Halos)** are done for the season and **Blood Oranges** are on their final week. **Navel Or-anges** will finish soon (end of May/early June), and then switching into **Valencia Oranges** soon after.

IMPORT CITRUS:

There are a few Peruvian **Mandarins** on the East Coast packed into a 10/3 lb. Better volume is expected by the end of the first week of June. Import **Navel Oranges** will start in mid-June.

CV TOMATOES

Beef and **Cluster Tomato** prices are on the rise. Hothouse growers in Ontario are replanting their greenhouses and options loading out of Texas and British Columbia are limited.

Check out the 12/10oz **Lorabella Tomato** for something new and exciting in the packaged tomato category!

CV GREEN BEANS

Green Beans are starting this week in Georgia. Expect prices to reduce significantly in the next few weeks.

24lb Pouch Green Bean packs are gapping until late May.

CV POTATOES

The **Red Potato** market remains soft. Supplies currently exceed demand. We are expecting a tremendous Florida crop with above average yields and great quality.

New crop **Yellow Potatoes** are becoming more available but at a higher cost. Supplies of storage crop **Yellow Potatoes** are near completion.

A beautiful new crop of **White Potatoes** is available from Florida, Arizona and California.

CV ONIONS

Onion shippers across the country are looking for more business now to prepare for the overabundance of supplies that will be arriving around June 1, from growers in New Mexico.

Pricing has weakened on most sizes and colors of **Onions** this last week, in hopes of encouraging some movement. There are still some storage **Onion supplies** available in the Pacific Northwest. Minimal change is expected in the **Onion** market over the next couple of weeks.

CV CHERRIES

Cherry volumes are better this week with prices slightly off. There will be good availability going into next week but will decrease in volume by the end of next week.

Bing Cherries will gradually start by the end of May with best volume in the first ten days June. Here again, the Bing crop is light and prices will remain high. Washington is hoping to get started the first week of June.

CV PEACHES & NECTARINES

Peach and **Nectarine** volumes and sizes are picking up and prices are gradually coming off. Quality and color are very good with some bigger sizes going into the 25-lb. pack.

Out of the Southeast, the start of this **Peach** season has been very sporadic with little fruit being picked. The season realistically won't get a good start until the end of the first week in June.

CV APRICOTS

Apricot volumes are huge, but the supply is steady and prices are stable. Color has been nice.

CV GRAPES

Fresh crop **Grapes** from Mexico continue to ramp up for the season. Quality on **Green** and **Red Seedless Grapes** has been nice. Sizing is heavier to large and mediums so far.
