

## ORGANIC HARD SQUASH SEASON

### GOOD NEWS!

**Organic Acorn, Butternut, Honeynut, Pie Pumpkins, and Spaghetti Squash** are all in abundant supply at the moment from **LOCAL** supplies in PA, as well as farms around the Northeast and Midwest. Pricing is very attractive, and will remain that way at least through the end of October. Promote away as the weather cools.

There are also plenty of **Organic Specialty Hard Squashes**, such as **Buttercup, Carnival, Delicata, Kabocha, Red Kuri, and Sweet Dumpling**, to round out your beautiful fall center piece displays all at very attractive pricing!

Olivia's brand **Organic Cubed Butternut Squash** is in peak season availability. This 20oz convenience pack is a top seller throughout the fall and winter.

Check out our printable Guide to Hard Squash variety chart on page 4.

### OG WARM VEG

Early October offers excellent production of **Organic Cucumbers** from Lady Moon Farms in Punta Gorda, Florida. Mid-October should bring much more affordable prices and promotional possibilities on these premium East Coast **Organic Cucumbers**.

In addition, Lady Moon Farms will continue to have a reliable supply of **Organic Zucchini**, despite the continued inflated cost due to the marketplace. Improvements are expected throughout October.

In October, **Organic Green Peppers, Yellow Squash, and Eggplant** will all be sourced from North Carolina. The season began with strong volumes and good quality.

### OG BERRIES

**GOOD NEWS!** **Organic Raspberries** are promotable out of Central Mexico. Quality has been excellent and supplies are strong. Look for hot buys to continue in mid-October.

**Organic Strawberries** remain fairly promotable out of California. Pricing is easing off a bit, and availability remains strong.

**Organic Blackberries** have okay price and availability. Some farmers from Central Mexico are having quality issues right now and are not shipping fruit, while other farms are okay to ship. Supplies are steady, and the quality we've seen has been nice from the right shippers.

**ALERT!** **Organic Blueberries** remain limited out of Peru and Mexico. Peru continues to try and rebound from the effects of El Niño rains, but supplies are still a few weeks away before we see any relief. Continue to expect limited availability and high pricing.

### OG LETTUCE

**GOOD NEWS!** Beginning in October, all **Organic Romaine, Green Leaf, and Red Leaf Lettuce** will be sourced from Pennsylvania, New York, and New Jersey, kicking off the **LOCAL** fall lettuce season. It is expected that the local season will provide products of high quality and quantity.

Additionally, **LOCAL Organic Iceberg Lettuce** will begin in October from New Jersey. Mid-October will bring strong quality and volume.

California **Organic Romaine Hearts** availability is still outstanding through mid-October. Strong availability and quality combined with competitive pricing intended to encourage promotional opportunities. Conditions will start to shift closer to November because of growing region transition time for West Coast shippers and the holiday season are both approaching.

## OG TROPICALS

**Organic Dragon Fruit** from California will be available for the middle of October. Look to grab this nice fruit while you can.

**Organic Kiwano Melons** and **Organic Passion Fruit** from California will be available in limited quantities for the month of October.

**Organic Pineapples** supplies are steady for the month of October. Quality is good.

**NOTE:** California **Organic Keitt Mangos** are available in light supply. Pricing is very high, but fruit eating quality has been good.

## OG TOMATOES

Savoura **Organic Beefsteak Tomatoes** are in steady availability, and outstanding quality is expected from this Quebec greenhouse grower.

New crop Quebec **Organic Cluster Tomatoes** are expected in late October, but could be sooner if the crop produces earlier than expected.

**NOTE:** East Coast **Organic Tomatoes** from Lady Moon Farms will be in a 2-3 week gap as they move production to Florida and plan to start back up by the end of October.

## OG CITRUS

**Organic Lemons** are currently tight from Argentina. Prices have elevated as new crop Mexico and California are not fully ready yet.

**Organic Valencia Oranges** are finishing up in California, and supply is very limited with some ending their season early due to quality. Mexico is starting in a small way.

New crop California **Organic Navel Oranges** should start in November.

## OG CELERY

**GOOD NEWS!** To start October, the availability of **Organic Celery** is still outstanding. Strong availability and quality combined with competitive pricing intended to encourage promotional opportunities.

Conditions will start to shift as we approach November because of growing region transition time for West Coast shippers and the holiday season are both approaching.

## OG BRUSSELS SPROUTS

**Organic Brussels Sprouts** are consistently available in early October. Growing regions in both the United States and Mexico are generating additional volume just in time for the colder months. Although the quality is top-notch, costs continue to differ from supplier to supplier. As the market stabilizes, volumes should continue to increase throughout October.

## OG AVOCADOS

**GOOD NEWS!** **Organic Hass Avocado** supplies are excellent from Mexico, and pricing will be promotable for the month of October. OKE/Equal Exchange's Fair Trade Organic programs will have ample fruit supplies as well.

**Organic Green Smooth Skin Avocados** are available from Florida.

## OG PEPPERS

**Organic Stoplight** and **Rainbow Pepper Packs** are available in 8/3ct packs. **Organic Red/Orange, Red/Yellow, and Red/Red Peppers** are available in 12/2ct packs.

With more Mexican production and the start of North Carolina grown **Organic Mini Sweet Peppers**, volumes are improving. As October progresses, stable supplies and improved pricing should be anticipated.

## OG ASPARAGUS

**Organic Asparagus** will be coming in from Mexico, Argentina, and Ecuador with fantastic quality.

Mexico will be crossing more and more as we get into October, and we can expect pricing to decrease into the middle of October.

## OG MELONS

**Organic Mini Seedless Watermelons** remain available out of California. Quality has been excellent to finish out the season. We'll transition into Mexico over the next few weeks.

**Organic Cantaloupes** and **Honeydews** are slowly coming along with some remaining fruit in California. While Mexico and Arizona start up, the demand has drastically dropped off for early October.

## OG CARROTS

**ALERT!** **Organic Cello Carrots** remain limited out of CA due to planting delays from Hurricane Hilary. This is expected to continue through the month of October. There will be pro-rates and occasional shorts on **Organic Cello Carrots**.

## OG GRAPES

**Organic Grapes** supply is becoming more sizable than weeks past, however prices are continuing to gradually increase. Quality on the "Autumn Crisp" **Greens** and "Allison" **Reds** has been nice.

## OG FALL FRUIT

**Organic Pomegranates** and **Organic Cranberries** California will make their highly anticipated season debut during the 2nd week of October!

Snackable **Organic Kiwi Berries** are in available for their short season. Promote while you can!

## OG POTATOES & SWEETS

We will make the switch over to Manitoba, Canada grown **Organic Red** and **Gold Potatoes** in 16/3lb and Bulk A size, with arrivals in early October. This will bring some beautiful **Organic Col-or Potatoes** and a bit better pricing as we move into this region. These will be packed in the Poplar Grove label.

**Organic Russet Potatoes** are still looking very sharp on quality out of Wisconsin. Pricing has also come off a bit as demand has eased up. Anticipate this pricing continuing to come down as we head into November.

We are now into "new crop" California **Organic Red, Orange, Japanese, and Stokes Sweet Potatoes** on from AV Thomas "Natural Beauty". The **Whites** will cut over to new crop the week of October 10/9, and by the end of October, we will have new crop **Ben Yagi** back in stock. A new variety, **Okinawa**, will also be available in late October.

## OG APPLES & PEARS

New crop Washington **Organic SugarBee Apples** are expected the second week of October, expect supplies to be firm all season. **Organic Rockit Apples** in 3lb "shuttles" are also now in season.

Sweet new crop **Organic Ambrosia Apples** are now available from Canada, and they are beautiful! Good supplies are expected.

2023 Washington **Organic Anjou Pears** are expected to begin the second week of October, and good supplies are expected with good, clean fruit.

First of the season **Organic Comice Pears** are expected the second week of October.

## OG BROCCOLI & CAULIFLOWER

California-grown **Organic Broccoli** is still not plentiful, even though volumes have increased. Improvements in volume and quality have subsequently decreased costs. Conditions are expected to become favorable as soon as early to mid-October.

**LOCAL** Pennsylvania, Virginia, and North Carolina production will begin to be available in October. Although there is still a shortage of **Organic Broccoli Crowns**, this is also anticipated to change in October as additional regions begin.

Between the last week of September and the beginning of October, the market for Californian **Organic Cauliflower** saw significant changes. The volume of had increased, and promotable pricing was being offered to encourage additional business. These circumstances did not last long. Volumes decreased as October's first week got under way, resulting in price rises.

## OTHER STORIES

- **Organic Stone Fruit** will finish for the season in early October, then gap until imports begin in the new year, except for some **Organic Plums**, which will continue until the end of October.

- **Organic Sweet Corn** was delayed slightly but will be back in house around 10/10.

- We have transitioned into **Organic Green Beans** from Mexico moving forward to fill customers' needs. This means we will be moving from a 25lb to 30lb cases.

- **NOTE:** Bulk **Organic SunGold Kiwifruit** came to an abrupt halt and are done for the season. There are still some 8/1lb clamshells available. **Organic Green Kiwifruit** supplies are very tight. Expect higher pricing for the month of October.

# GUIDE TO HARD SQUASH

## ACORN/GOLDEN ACORN

- Small and round like an acorn
- Sweet, slightly nutty vegetable flavored flesh
- Versatile in cooking, roasting
- Packed with fiber

## GOLDEN NUGGET

- Looks like a small pumpkin
- Sweet, orange flesh

## BLUE/GOLDEN HUBBARD

- Small and round like an acorn
- Sweet, slightly nutty vegetable flavored flesh
- Versatile in cooking, roasting
- Packed with fiber

## HONEYNUT

- Like a mini-sized butternut
- Flesh is much sweeter and has more squash flavor than butternut

## BUTTERCUP & KABOCHA

- Green skin
- Sweet & creamy orange flesh
- Kabocha aka "Japanese Pumpkin"

## RED KURI

- Japanese variety
- Orange exterior, yellow flesh
- Nutty & sweet

## BUTTERNUT

- Most popular hard squash variety
- Orange flesh
- Versatile in cooking, roasting
- Ideal blended for soup

## SPAGHETTI

- Mild & sweet flavor
- Flesh comes out like pasta strands when cooked - hence the name

## CARNIVAL

- Pale, orange flesh
- Relative of Acorn & Sweet Dumpling

## SWEET DUMPLING

- Mildly sweet
- Tender, orange flesh

## DELICATA

- Yellow flesh
- Tastes like a sweet potato
- Edible shell - no peeling needed!

## TURBAN

- Gets its name from its unique shape
- Use as decoration, soup bowl, or a floral arrangement

# ARE YOU READY FOR "SOUP"TOBER?

## KETTLE CUISINE™

Four Seasons Produce is pleased to offer a large selection of clean ingredient, heat & serve, fresh refrigerated soup options from Kettle Cuisine.

Kettle Cuisine soups are made with impeccably sourced natural ingredients and no additives - Cooked with care using time-honored classic techniques from in-house made stocks to hand-prepared fresh vegetables and herbs to custom-blended spices, adding each ingredient at just the right moment, building flavor slowly, layer by delicious layer.

*Premium, 100% Natural Soups, Chilis & Chowders, Vegan, Vegetarian, Gluten-free, and Dairy-free Options Available*

In stock daily! Ask your rep for more information.

# CONVENTIONAL MARKET NEWS

OCTOBER 6 - OCTOBER 13, 2023

## PROMOTABLE APPLES

**GOOD NEWS!** Time to promote Apples!

Fresh crop Eastern Apples are in peak season! Cortland, Gala, Ginger Gold, Honeycrisp, McIntosh, Red Delicious, Snap Dragons, and Sweet Tango are all readily available from PA and NY.

Eastern Empire and Gold Delicious Apples will start around October 11.

Out of Washington, fresh crop Apples are plentiful too.

Red flesh Lucy Glo and Lucy Rose Apples are in season. Snack-size Rockit Apples are also available in 3lb "shuttles."

New crop SugarBee Apples are coming back into season! This sweet and crisp apple has become a staff-favorite at Four Seasons Produce!

## CV ONIONS

Green Valley brand 2lb and 3lb net Yellow Onions are now being brought in with Pink Net bags for the month of October for Breast Cancer Awareness Month.

**NOTE:** The PA Sweet Onion deal will come to an abrupt.

**NOTE:** There are major issues in the Peruvian Sweet Onions this season due to the El Niño weather they are having in Peru. The warm, wet weather has caused the crop to be very small in size with Jumbos being extremely scarce out of this growing region. Expect the entire fall crop to be like this.

Sizing might be better in the new year and the later Peru season. For now, we will plan to transition Jumbo Sweet Onions over to domestic harvests, and the bagged Onions will be product of Peru as the medium size is actually plentiful.

We will see our first arrival of the 16/3lb medium Peruvian Onions in early October in full high graphic Mayan Sweet bags. This product is being packed in Philadelphia fresh to order, so quality will be very nice.

Jumbo Sweet Onions will be product of Colorado, and the appearance will be a bit more round, but still a nice Sweet Onion variety in Mayan Sweet 40lb cases.

## CV BERRIES

**GOOD NEWS!** Raspberries are very promotable out of Central Mexico. Volume has come on very strong, and quality is excellent. This is a great item to open up on and promote for October. Expect spot deal pricing as well.

Strawberries are fairly promotable as demand remains weak right now. Most production has moved to southern CA but there are a few Northern California farms are still picking from old plants. Central Mexico has also started with light production. Quality on new crop has been very nice.

**NOTE:** Blackberry supplies remain limited overall out of Central Mexico. Some shippers are dealing with quality issues, which is really affecting pricing and availability right now.

**ALERT!** Blueberry supplies remain extremely limited to not available at all. Most shippers are barely covering their contracted mega-national customers and market fruit prices continue to rise. More supplies are on the water from Peru, and should start coming in over the next few weeks. That should help with supply but pricing is expected to remain at an elevated level for some time this fall. This is a result of low yield in Peru from El Niño rains.

## CV FALL FRUIT

California Pomegranates are steady as we start October. Expect pricing to drop over the next several weeks as more and more growers begin their seasons.

The POM Wonderful brand "Wonderful" variety Pomegranate season will start by the end of October. This will include 4oz and 8oz Pomegranate Aril cups, and whole Pomegranates in high-graphic bins and cartons.

Fuyu Persimmons have started in California, and will be available on the East Coast around 10/10. Hachiya Persimmons will be available the week of 10/16. Fuyu can be eaten when firm or soft, while Hachiya must ripen to soft before cutting.

California Quince continue in peak season for the fall.

Fresh Cranberries are in season! Four Seasons will offer both Ocean Spray brand and LOCAL Jersey Fruit brand.

## CV BROCCOLI

**LOCAL PA Stem Broccoli** in 110ct hydro-cooled bins is readily available and still arriving beautifully!

**Broccoli Crown** pricing is starting to slowly trend upwards as different growing regions finish for the season.

**NOTE: Sweet Baby Broccoli** remains limited, so continue to expect gaps in availability.

## CV MELONS

Sizing is predominantly large on both **Cantaloupe** and **Honeydew**. Quality remains strong on both internally and externally, along with a healthy brix. The timeline for transitions: California until 10/15, Mexico/Arizona from 10/15-11/6, then transition back to import fruit for the remainder of the year.

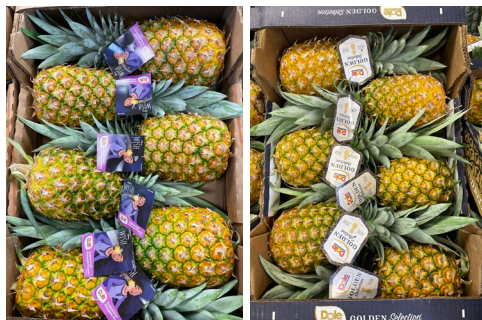

**Watermelons** are limited as all local production has wrapped up. South Carolina has a light crop coming for the fall, and Florida will start their fall crop in mid-October. Mexico will fill the gap as well for the next few weeks. Quality should be excellent on all new crop fruit.

## CV GRAPES

California XL and Jumbo **Grapes** are coming on strong with great quality and excellent taste. While prices are not promotable, it's still a great time to push these top notch varieties (Allisons, Timco's, Sweet Celebrations, Autumn Crisp, Autumn King).

Large and Medium-Large **Grapes** are slowing coming back in play from California, offering a tiered value compared to the XL/JBO pricing.

## CV PINEAPPLES

**GOOD NEWS!** Falling prices have made **Pineapples** very promotable for the middle of October!

Premium high-color Dole **Golden Selection** and Del Monte **HoneyGlow Pineapples** will also be available.

## CV LOOSE RETAIL POTATOES

We will make the switch from Stockton, CA grown to new crop Washington A, B, and C size **Gold, Red, and White Potatoes** in 50lb boxes, premium retail-grade.

The Idaho **Count Russet Potato** prices seem to have leveled out a bit. Quality is excellent.

## CV TROPICALS

**GOOD NEWS!** Hass **Avocados** from Mexico will be promotable for the month of October. Volumes are up and prices continue trending downward.

**Tommy Atkins Mangos** from Brazil have been very nice quality. Supplies have tightened a bit, and pricing keeps inching up.

**NOTE:** Long term, **Mango** supplies are expected to be very short for the 4th quarter of 2023.

## CV EGGPLANT & CUCUMBERS

**Eggplant** will be moving from local into primarily Mexican production for mid-October.

**Super Cucumbers** are still available out of New Jersey, but are also becoming available in Georgia and Mexico.

## CV HARD SQUASH

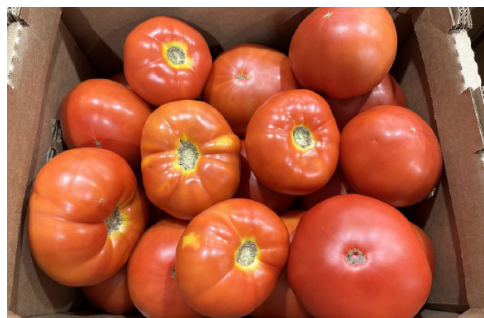

Cedar Meadow Farms is still rolling along with some beautiful regeneratively-grown **LOCAL** Pennsylvania **Acorn, Butternut, Spaghetti, and Kabocha Squash**.

## CV SOFT SQUASH

**GOOD NEWS!** Green and Yellow **Squash** will be promotable in October with **LOCAL** product still going strong, product out of Mexico is still available, and the Carolinas and Georgia are starting again.

## CV TOMATOES

**Vine Ripe Round** and **Roma Tomatoes** are tightening up. We will be looking to pull product from Alabama and Mexico moving forward, looking for the best quality and price.

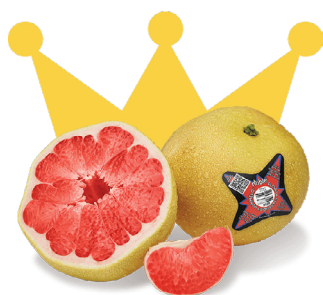

## CV GREEN PEPPERS

**Green Peppers** will be moving from local to product out of Georgia and Mexico for mid-October.

## CV PEARS

New crop **Happi Pears** are available from Stemilt. This variety is "sweet with a bright and zesty bite", and can be eaten when the skin is green or yellow.

## CV CITRUS

Florida **Citrus** season is starting! The first "Hamlin" variety **Juice Oranges** are in stock, **Seeded Fall Glo Tangerines** too. "Starburst" **Jumbo Pummelos** from Nobel arrive 10/11.

**Grapefruit** is finished in California, with Texas just about to get started. Florida **Grapefruit** should have fruit to harvest by 10/6. There is import fruit available as well to fill in any short gaps during this transition period.

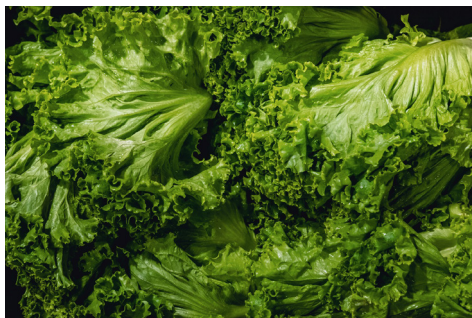

**NOTE:** Import **Mandarins** have spiked in price as supply is getting very minimal. Quality will remain right, but promotable pricing will be hard to find for the month of October.

**NOTE:** Import **Navel Oranges** have become exceedingly tight on all sizes, causing prices to increase. "Midnights" have begun to arrive, but expect costly prices for the month of October.

**Valencia Oranges** are peaking on both choice and fancy fruit on all sizing out of California. Promote!

**Lemons** will now transition to District 3 in California while the import crop finished rather swiftly. Expect sizing to peak on 115s-140s to start the D3 season.

**ALERT!** **Limes** from Mexico are showing limited volume and increased loss, keeping supplies tight and prices high.

## CV LETTUCE

California still has steady supply of **Romaine, Romaine Hearts, Red Leaf, and Green Leaf**. Quebec is ending.

**LOCAL** New Jersey fall crop has started, but is seeing field gaps due to unsteady weather patterns. Overall quality has been good.

**Iceberg Lettuce** pricing is trending upwards out of California. The Quebec season is coming to an end, and Mexico has started. There is a range of pricing, availability, and quality depending on the growing region.

## CV CARROTS

**NOTE:** **Cello Carrots** remain limited out of California. This is expected to hold through the month of October. Quebec expects to have product through January, which will help keep supplies flowing.

October 16<sup>th</sup> - November 12<sup>th</sup>, 2023

## STEMILT WORLD FAMOUS FRUIT APPLE & PEAR DISPLAY CONTEST SPECTACULAR

Our annual **Stemilt Apple and Pear Display Contest** is here! Four Seasons Produce has again partnered with Stemilt Growers to bring you a display contest that is sure to drive serious volume, create lots of excitement at store level, and bring a good old fashioned Fall atmosphere into your produce departments. **BEAUTIFUL** Washington State grown organic and conventional apples and pears are now in full swing, with outstanding quality and great sales opportunities. This four week promotion will have your customers loading up their carts with fresh apples and pears, and it offers you a chance to show off your creativity and win some cool prizes! Remember - an apple display a day, will drive sales all the way!

### CONTEST RULES:

- Build an **AWESOME** apple and pear display using Stemilt World Famous fruit! All fruit **MUST** be purchased from Four Seasons Produce.
- Your display must contain **AT LEAST FIVE** varieties or SKU's from the contest codes below. This requirement can be a combination of both loose and bagged fruit.
- There will be a category for Lil Snappers for this year's contest as well, and you will **need three (3) varieties** on display to be qualified as an entry.
- Your display **must contain Stemilt POS signage, boxes or bins** highlighting the Stemilt label. Point of Sale kits and signage will be available through your Four Seasons Sales Rep or Merchandiser.
- All displays **must remain up** for a **minimum of one week**.
- All display entries should be emailed to [contests@fsproduce.com](mailto:contests@fsproduce.com) by Thursday November 16<sup>th</sup>, 2023.

### CONTEST CATEGORIES & PRIZES

#### GRAND PRIZE

"Stemilt Spectacular"

#### LARGEST DISPLAY

"Stemilt Space Station"

1st - \$300

2nd - \$200

3rd - \$100

#### MOST CREATIVE

"Stemilt Styler"
